UPLIT ARCHITECTURAL TROFFER

UNIVERSAL VOLTAGE 120-277

GENERAL DESCRIPTION

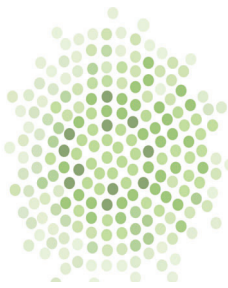

Unique and stylish, GUSCO Energy's new Uplit Architectural Troffer provides exceptional light output. The modern look and uplit optical provides optimal light uniformity, resulting in superior visual comfort.

STRUCTURE, MATERIALS & FEATURES

The Uplit Architectural troffer body is made from heavy gauge rolled steel with a high gloss acrylic paint finish. The heavy frosted lens allows ample light output without being harsh. Comes standard with a quality dimming driver and SMD2835 chip set and is ETL and DLC listed.

APPLICATION

The Uplit Linear is an excellent option for high end new construction, without the high-end price. It's the perfect linear option for schools, conference rooms and centers and hallways and modern office spaces.
